

STUDIO SUPPLE

Job Title / Lead Designer

Working Pattern

Full-Time, 5 Days per Week (To be discussed)

Friday, flexible day (WFH).

Role Overview

The Lead Interior Designer is responsible for leading interior design projects within an Interior Design practice, from early concept through to construction and completion. The role requires close collaboration with architects, consultants, and clients to deliver well-designed, functional, and high-quality interior environments. The Lead Interior Designer will also support and guide junior designers while maintaining design quality across projects. As a boutique studio we focus on having 5 projects on at one time, this role would be focused on one large Grade II listed property and one other property on the Scottish Highland Borders.

Key Responsibilities

- *Lead interior design projects from concept, detailed design, and construction stages.*
- *Develop design concepts, space planning, finishes, and material selections that align with the architectural design.*
- *Prepare and review drawings, specifications, and schedules to ensure design quality and accuracy.*
- *Coordinate with architects, consultants, and contractors to integrate interior and architectural elements.*
- *Manage client communication, lead presentations, and respond to design feedback – along with Archie & Scarlett*
- *Attend site meetings, review works on site, and assist with resolving design and technical issues.*
- *Manage and mentor junior interior designers, reviewing work and providing guidance.*
- *Ensure projects are delivered to agreed budgets, programmes, and quality standards.*

Skills & Experience

- *Qualification in Interior Design or a related discipline.*
- *Strong experience working as an interior architect role designer within an interior design practice.*
- *Proven ability to lead projects and manage design teams.*
- *Good understanding of building regulations, materials, finishes, and construction processes.*
- *Proficiency in design and documentation software such as AutoCAD, photoshop, Adobe Creative Suite & Indesign.*

Personal Attributes

- *Strong design sensibility with good attention to detail.*
- *Confident communicator with clients and project teams.*
- *Organised, proactive, and able to manage multiple projects at once.*
- *Collaborative leadership style with a practical, solution-focused approach.*

Salary

£65,000
