Interior Designer Role for Anahita Rigby

Start Date: Immediately
Location: West London
Hours: Full Time
Salary: Dependant on experience

Role Description

Anahita Rigby is looking for a motivated Designer to join our growing team. This is an exciting opportunity to become an integral part of a highly creative and exceptionally talented team working on high end, varied projects in the UK and overseas. The role requires support to be provided across all areas of the business including concept design, drawing – both CAD and by hand, project organisation, sourcing, overall administration and attending client meetings, site meetings and sourcing trips.

The ideal applicant would be a skilled designer with a minimum experience of 3+ years in residential and or commercial design and ideally with a prior industry recognised qualification. The position is suited to someone comfortable working in a dynamic studio, someone who is flexible, with a strong attention to detail and a proactive approach.

Key Skills and Experience Required;

- High level proficiency using AutoCAD, working on technical drawings in plan, elevation and detailed joinery design
- High level proficiency with Adobe Suite, most importantly, InDesign and Photoshop
- 3D modelling skills – Sketch-up with Enscape
- Excellent supplier knowledge and antiques essential
- IT literate with Microsoft Office
- Interior architectural experience is preferable but not essential
- Excellent communication skills, both written and verbally
- Excellent eye for design, scheming and producing presentations
- An in-depth understanding of producing hard finishes and sanitaryware schedules
- Competency in managing multiple project budgets and timeframes and keeping specifications up to date throughout the timeframe of a project
- Ability to work as part of a dynamic and growing team and to take initiative where required
- Good interpersonal skills, liaising directly with clients and build/studio teams

General Responsibilities (included but not limited to);

- Administration with support from our Office Manager
- Creating well researched design concepts
- Developing furniture and lighting layouts
- Sourcing fabrics, wallpapers and finishes
- Liaising with suppliers and contractors
- Collating information and schemes for projects
- Attending site visits, client meetings
- Attending project installations and photoshoots
