

## **Position: Senior Interior Designer – Residential**

Blyth Collinson Interiors is seeking an exceptional **Senior FF&E / Interior Designer** to join our growing London studio. We specialise in delivering elegant, meticulously crafted interiors for discerning private clients in the UK and abroad. This is a key hire for a designer with deep experience in high-end residential work, a passion for refined detailing, and the confidence to lead complex luxury projects from concept to completion. This position offers significant long-term growth potential within the studio.

As a Senior Designer at Blyth Collinson Interiors, you will:

**Design Leadership:** - Lead the FF&E and interior design direction across multiple high-end residential projects. - Develop strong, distinctive concepts and translate them into fully resolved design schemes. - Mentor and guide junior team members, providing creative and technical oversight.

**Client & Project Management:** - Serve as a primary point of contact for private clients, consultants, and contractors. - Lead and participate in client meetings with confidence, discretion, and clarity. - Manage multiple live projects, ensuring deadlines are met and standards are maintained. - Travel for site visits, installations, and supplier research when required (UK and international).

**FF&E & Technical Responsibilities:** - Create detailed FF&E schemes - Source, curate, and specify furniture, lighting, textiles, accessories, and artwork. - Design bespoke FF&E including joinery- Prepare and manage comprehensive FF&E schedules, specifications, and budgets. - Oversee procurement, logistics, and installation, ensuring flawless project delivery. - Coordinate with suppliers, artisans, contractors, and fabricators to maintain quality and timelines. - Review, comment on, and sign off drawing packages with confidence. - Conduct site inspections, manage snagging, and uphold studio quality standards throughout.

**Experience:** - 10 + years' experience in interior design, with a strong focus on high-end residential projects. - Proven ability to manage projects from concept to installation.- Experience working with UHNW- Solid understanding of procurement processes, project finances, and contractor coordination.

**Technical & Creative Skills:** Strong FF&E background with string eye for detail. - Confident producing and overseeing AutoCAD drawing packages. - Ability to communicate design intent clearly through drawings, presentations, and specifications.

**Software:** - AutoCAD/Vector Works , Adobe Creative Suite (Photoshop, InDesign), Microsoft Office / Google Workspace, EstiPC or EstiMac procurement software, SketchUp or similar 3D modelling tools

If you re keen to join our dynamic and growing team we would be delighted to hear from you!
