

BLYTH-COLLINSON
INTERIORS

Our design team is growing and we are looking for a talented Senior Interior Designer to join us!

We are currently working a range of beautiful projects in the UK and abroad and are looking forward to welcome a Senior Interior Designer.

Role: Senior Interior Designer
Location: Central London (currently Clapham South - relocating near Victoria within 2 months)
Hours: Monday–Thursday 08:30–17:30, Friday 08:30–15:30
Type: Full-time, office-based

Blyth Collinson Interiors is seeking a highly experienced Senior Interior Designer to join our growing studio. This is a key role for a confident and creative designer with strong technical expertise and proven experience leading high-end residential projects from concept through to completion.

You will be responsible for managing multiple projects across London, the countryside, and internationally, delivering exceptional design with meticulous attention to detail. The role requires a balance of creative vision, technical precision, and client-facing confidence.

Key Responsibilities

Project Leadership & Client Management

- Lead projects from initial concept through to installation and completion
- Act as the primary point of contact for clients, managing expectations and communication
- Oversee project timelines, budgets, and deliverables
- Coordinate procurement, sourcing, and installation processes

Design & Creative Direction

- Develop and present strong, cohesive design concepts for high-end residential interiors
- Contribute to and help shape the studio's creative direction
- Create mood boards, presentations, and material palettes
- Ensure a consistent and refined design narrative across all spaces

Technical Design & Delivery

- Produce and oversee detailed drawing packages (GA plans, elevations, joinery details, FF&E layouts)
- Translate concepts into fully resolved, buildable designs
- Specify high-quality materials, finishes, and bespoke elements
- Ensure compliance with UK building regulations and project requirements

Coordination & Execution

- Liaise with architects, contractors, consultants, and specialist suppliers
- Review technical drawings, shop drawings, and samples
- Attend site visits to ensure design intent is executed to the highest standard
- Oversee bespoke joinery, kitchens, bathrooms, and custom elements
