

farra

JOB OFFER: INTERIOR DESIGN TECHNICIAN (Part-time)

ABOUT FARRA

Studio Farra is a small and growing design studio based in Camberwell, South East London. The team work on a diverse range of high-end residential projects across the UK. Our current portfolio spans period family homes, a mews property in Paddington, and a semi-subterranean new build in the Cotswolds. We are a collaborative, enthusiastic and creative team that aspires to produce the highest quality of work possible for our clients whilst having fun in the process.

We are now looking to hire a detail-oriented, passionate and self-driven interior design technician to become a key part of our team. They will be central to shaping and driving forward 2D technical drawings (AutoCAD), 3D modelling, and rendered visuals for each of our projects. If you can also deliver high-level hand drawn sketches, that would be a bonus.

You will play a key role in supporting the design team technically from concept right through to completion, and will have the opportunity to contribute to space planning and interior architecture, as well as bespoke FF&E and joinery design. We want someone who has strong technical skills, but also creative flair and a passion for interiors. You will be predominantly contractor and supplier facing, and on occasion will liaise directly with clients.

Location: London

Position: Part-time - initially, three days a week in the office with potential to scale-up

Start Date: Immediate

Salary: Competitive, commensurate with experience

YOU'RE A GREAT FIT IF YOU...

- Have 2+ years experience working in interior design or interior architecture
- Are detail-orientated - down to the millimetre!
- Have proven experience producing a full spectrum of technical drawings, from lighting and electrical plans to tile formatting and bespoke joinery packages
- Can build, maintain, and evolve drawing packages as designs evolve
- Can build 3D models from verbal creative briefs and conceptual proposals
- Look at interior spaces and see numerous opportunities
- Have one eye on the nitty gritty details and the other on the bigger picture
- Relish creating beautiful interior visualisations that inspire and excite clients

- Bring a spirit of hustle and infectious energy
- Have a rich and diverse eye when it comes to style, design, and craft
- Thrive in a team-oriented, ego-free environment
- Have an understanding of building regulations and wider compliance considerations
- Can create social media content that will feed Instagram's algorithm
- Are already unlocking the opportunities of AI
- Take pride in good and consistent presentation
- Can manage your time but will also flag if you're in a CAD black hole. Never fun

HARD SKILLS

- **Required:** AutoCAD, SketchUp, Photoshop, V-Ray or similar rendering tools
- **Nice to have / willing to learn:** Canva, Programa, AI tools (MidJourney, Nano Banana)

RESPONSIBILITY RUN-DOWN

- Act as the bridge between creative design and site-ready information packages
- Help to shape and evolve an in-house technical drawing style for the studio
- Produce and oversee full detailed technical drawing packages
- Contribute to design analysis and space planning, as well as design critique
- Translate designers' concepts into accurate technical information
- Flag potential buildability, regulation or coordination issues
- Support new business pitches through technical drawing, modelling and visualisation
- Contribute to marketing, social media, and raising studio visibility
- Assist with FF&E, finishes, lighting, and joinery schedules
- Support preparation of specifications and tender packs
- Provide ad-hoc general administrative support for the studio

WHAT YOU'LL GET

- Salary: £26,000-30,000 pro rata (depending on experience)
- 16 days paid leave (including public holidays)
- Your birthday off (or the closest workday)
- Creative freedom and meaningful responsibility
- A collaborative studio culture that supports growth
- Access to the Cycle to Work Scheme
- Quarterly team lunches / socials
- Regular tickets to industry events
- Company sick pay
- Access to studio trade discounts for personal FF&E purchases
- Discretionary project bonuses
- Personal spending pot for training and creative side hustle pursuits
- Access to a Create Academy subscription
- A home workspace design budget of £200
- Enrollment onto workplace pension scheme in line with statutory requirements
- Access to an interiors or design related subscription of your choice

If you would like to apply for this opportunity, please send your CV and portfolio to careers@studiofarr.com.

Please note, you will need to be comfortable working around a dog - she's a real softie.
