

HUBERT ZANDBERG INTERIORS LTD

Freelance Interior Architect

Location: Hubert Zandberg Interiors, Notting Hill, London

Hours: Monday-Friday / 09:00 – 18:00

Role Overview (High End Residential & Hospitality)

As an Interior Architect, you will be responsible for translating design concepts into precise, buildable interiors. This role requires a strong sensitivity to materials, craftsmanship, and bespoke detailing, alongside robust technical delivery. The practice places particular emphasis on tailored solutions rather than standard approaches, with high expectations for precision, finishes, and construction detailing.

Key Responsibilities

Concept to Detail Development

- Develop spatial layouts that reflect high end living and guest experience
- Interpret high-level concepts into detailed interior architecture packages
- Design bespoke joinery, kitchens, bathrooms, and feature elements
- Ensure a cohesive design narrative across all spaces

Technical Design

- Produce comprehensive drawing packages (GA plans, RCPs, Floor Finishes, elevations, bespoke joinery details)
- Specify high-end materials (stone, timber, metals, custom finishes)
- Ensure compliance with UK building regulations and luxury performance standards
- Integrate lighting, FF&E, and architectural detailing seamlessly

Coordination & Delivery

- Coordinate closely with the Interior Design team on FF&E items and finishes
- Coordinate with consultants (Architect and other professionals, MEP, specialist fabricators, joiners)
- Liaise with contractors and artisans on bespoke elements
- Review shop drawings, prototypes, and material samples
- Attend site visits to ensure design intent is executed to the highest standard

Team Contribution and Client Engagement

- Support senior designers in delivering design excellence
- Mentor junior team members where appropriate
- Contribute to design reviews with a strong eye for quality and detail
- Present refined design solutions clearly and confidently
- Manage expectations and respond to detailed client feedback
- Maintain discretion, professionalism, and sensitivity to client needs

HUBERT ZANDBERG INTERIORS LTD

Software

- Produce detailed and coordinated drawings using AutoCAD
- Create high-level 3D models and visuals
- Sketchup
- Prepare presentations and mood boards using Adobe Creative Suite (Photoshop, InDesign)
- Use Excel for schedules and documentation

Key Skills & Competencies

- Strong technical detailing, especially bespoke joinery and luxury finishes
- Deep understanding of high-end materials and specialist suppliers
- Ability to balance design vision with buildability, programme and budget
- Exceptional attention to detail and finish quality
- Strong communication skills

Qualifications & Experience

- Degree in Interior Architecture, Interior Design, or Architecture
- 3–6 min years' professional experience, ideally in luxury residential or hospitality sectors
- Strong portfolio demonstrating:
 - Bespoke detailing
 - Built project experience
 - Knowledge of UK building regulations and site processes
 - Right to Work in the UK

Competitive Salary
