

## SENIOR INTERIOR DESIGNER

Location: London, with travel to sites and suppliers as required

Position: Full-time, in office 5 days a week

### Role Overview

We are seeking a talented and highly organised Senior Interior Designer to join our London studio. Working across a range of high-end residential and boutique hospitality projects in the UK and internationally, the successful candidate will bring creative flair, technical proficiency, and a collaborative spirit to the design team.

You will be required to confidently lead projects from concept through to installation — initiating design development, managing budgets and invoicing, producing detailed drawings and schedules, and coordinating with suppliers, contractors, and craftsmen. This role requires both creative sensitivity and practical discipline, with an understanding of the balance between beauty, function, and precision that defines the Nina Campbell aesthetic.

### Key Responsibilities

#### Design Development

- Initiate the creative development of design concepts.
- Prepare mood boards, colour schemes, and FF&E proposals in line with project briefs.
- Sourcing fabrics, finishes, and materials, maintaining awareness of current trends and suppliers.
- Maintain design integrity and attention to detail across all stages.

#### Technical & Project Delivery

- Produce and revise drawings, layouts, and detailed joinery designs using AutoCAD.
- Create and manage client estimates, FF&E schedules and specifications.
- Liaise with suppliers and workshops to ensure accuracy of production and timely delivery.
- Attend site meetings, coordinate with contractors, and assist in resolving design queries.
- Organise, manage and attend on-site installations and styling as required.

### Team & Client Coordination

#### Project Contribution

- Ensure projects are delivered on time and within budget.
- Prepare client presentations and assist in documentation for approvals.
- Communicate professionally with clients, suppliers, and consultants, representing the studio's standards and ethos.

#### Studio Contribution

- Maintain sample libraries and supplier contacts.
- Support team members and interns with day-to-day project tasks.
- Uphold the collaborative spirit of the Nina Campbell studio.

### Skills & Experience

- Minimum 3-5 years' experience in a high-end interior design studio in a senior design role.
- Proven ability to lead multiple high-value projects through all design and delivery phases.
- Strong creative and technical skills with proficiency in AutoCAD, Adobe Creative Suite, Microsoft Office and Estimac (or equivalent).
- Excellent knowledge of FF&E, bespoke joinery, and material sourcing.

- Strong organisational skills with meticulous attention to detail.
- A collaborative and adaptable approach with excellent communication skills.
- A refined appreciation of the Nina Campbell aesthetic and commitment to quality.

Competitive salary, commensurate with experience.
