

Interior Designer / Architect

Employment Type: Full time

We are looking for a hands on Interior Designer / Architect with a strong aesthetic sensibility and a passion for blending new-world functionality with old-world character.

This is a practical, end to end role suited to someone who enjoys being deeply involved in every stage of a project from early concept mood boards through to planning permissions, site coordination, and final delivery.

You will take an active role in running projects from start to finish, working closely with clients, consultants, and contractors to ensure the design vision is executed to a high standard.

Key Responsibilities

- Develop concept designs, mood boards, and material palettes.
- Prepare interior layouts, architectural drawings, and presentation packages.
- Manage projects from initial concept through to completion.
- Handle or support planning permissions and approvals where required.
- Coordinate with contractors, suppliers, and consultants.
- Provide hands-on guidance on site, ensuring quality and design intent.
- Source finishes, fixtures, and bespoke elements.
- Assist in managing project timelines and budgets.

Key Requirements

- Background in Interior Design and Architecture.
- Strong eye for interiors that combine contemporary and traditional elements.
- Hands on approach with confidence on site.
- Ability to run projects independently with support where needed.
- Strong communication and coordination skills.

- Proficiency in relevant design software (e.g., AutoCAD, SketchUp, Adobe Suite)
