

FROMENTAL

Design & Production Assistant

Department: Design Studio

Reports to: Studio Coordinator

Location: London Studio, NW6

Working pattern: 5 days per week, office-based with flexibility to discuss a 4-day role.

Salary: £30,000 per annum

Contract: 12-month fixed-term contract, with the possibility of extension.

About Fromental

Fromental creates distinctive wallcoverings and interiors for residential and hospitality spaces around the world. Combining traditional craft with contemporary design and technology, our work spans hand-painted and embroidered wallcoverings, printed collections, artworks and accessories.

The role

We're looking for a Design & Production Assistant to join our London Design Studio. This is an entry-level role for someone who is organised, visually minded and has a strong interest in design, colour and craftsmanship.

You'll support the Studio with the preparation and production of our existing wallpaper collections, including digital artwork preparation, sampling and colour matching. It's a varied, hands-on role offering the opportunity to develop technical skills and gain experience within a luxury wallcovering studio.

There may also be opportunities to learn traditional Chinoiserie painting techniques, including a potential visit to our artist studios in Wuxi, China.

About you

We're looking for someone who is detail-oriented, organised and keen to learn, with a good eye for colour and composition and confidence using design software. An interest in textiles and wallpaper is essential, while hand-painting skills and CAD knowledge would be an advantage.

You'll ideally have:

- Excellent attention to detail and a good eye for colour, pattern and composition
- Working knowledge of Adobe Photoshop
- Confidence working with dimensions, measurements and scale
- Good organisational skills and the ability to manage several tasks at once
- An interest in wallpaper, textiles, interiors and craftsmanship
- A proactive attitude and willingness to learn new skills and processes
- Hand-painting skills would be an advantage
- Previous studio experience would be useful but isn't essential

What you'll be doing

- Prepare and adapt artwork from our existing design library for wallpaper production
- Create digital wallpaper samples and prepare artwork files for production
- Help organise and prepare physical wallpaper samples, panels and design references
- Support colour matching and quality checks to maintain high standards
- Assist with the coordination of design and production materials

FROMENTAL

- Keep the Studio organised and ensure samples and materials are stored correctly
- Provide general support to the Design and Production Teams as needed
- Occasionally assist with on-site painting touch-ups where required

What you'll get from the role

You'll gain hands-on experience in luxury wallpaper production, developing practical skills in digital artwork preparation, colour matching and sampling. Working alongside our Design and Production Teams, you'll gain an understanding of the craftsmanship, technical processes and attention to detail involved in bringing Fromental's wallcoverings to life.

Company benefits

- Employee Assistance Programme
- Health Cash Plan
- Cycle to Work Scheme
- Season Ticket Loan
- Two volunteer days
- Learning Hours – dedicated time for training, webinars and self-directed learning

How to apply

Please send your CV to helena@fromental.co.uk with the subject line '**Vacancy: Design & Production Assistant – [Your Name]**'.
